*Through Darkest Europe* Harry Turtledove 2018-09-18 \*io9's New Sci-Fi and Fantasy Books You Need to Put On Your Radar This Fall From the modern master of alternate history and New York Times bestselling author Harry Turtledove, *Through Darkest Europe* envisions a world dominated by a prosperous and democratic Middle East--and under threat from the world's worst trouble spot. Senior investigator Khalid al-Zarzisi is a modern man, a product of

the unsurpassed educational systems of North Africa and the Middle East. Liberal, tolerant, and above all rich, the countries and cultures of North Africa and the Middle East have dominated the globe for centuries, from the Far East to the young nations of the Sunset Lands. But one region has festered for decades: Europe, whose despots and monarchs can barely contain the simmering anger of their people. From Ireland to Scandinavia, Italy to Spain, European fundamentalists have carried out assassinations, hijackings, and bombings on their own soil and elsewhere. Extremist fundamentalist leaders have begun calling for a "crusade", an obscure term from the mists of European history. Now Khalid has been sent to Rome, ground zero of backwater discontent. He and his partner Dawud have been tasked with figuring out how to protect the tinpot Grand Duke, the impoverished Pope, and the overall status quo, before European instability starts overflowing into the First World. **Gunpowder Empire** Harry Turtledove 2010-04-01 In Harry Turtledove's *Gunpowder Empire*, Jeremy Solter is a teenager growing up in the late 21st century. During the school year, his family lives in Southern California--but during the summer the whole family lives and works on the frontier of the Roman Empire. Not the Roman Empire that fell centuries ago, but a Roman Empire that never fell: a parallel timeline, one of an infinity of possible worlds. For in our timeline, we now have the technology to move among these. Some are uninhabitable; some are ghastly, such as the one where Germany won World War II. But many are full of resources and raw materials that our world can use. So we send traders and businesspeople--but to keep the secret of crosstime traffic to ourselves, these traders are trained, in whole-family groups, to pass as natives. But when Jeremy's mother gets sick--really sick, the kind you can't cure with antibiotics. Both parents duck out through the gateway for a quick visit to the doctor. But while they're gone, the gateways stop working. So do the communications links to their home timeline. The kids are on their own, and things are looking bad. The Lietuvans are invading. The city is besieged. The kids are doing their best to carry on business and act like everything's normal, but there's only so much you can do when cannonballs are crashing through your roof. And in the meantime, the city government has gotten suspicious, and is demanding a \*full\* report on how their family does business, where they get their superior merchandise, why they want all that wheat ...exactly the questions they don't want to answer. When their secret trysts were betrayed, Emperor Thorisin Gavras was forced to condemn Marcus as a traitor -- but with a promise of freedom and Alypia, if he could reclaim a rebel province from a fanatic usurper, with no military aid. With only centurion Gaius Philippus, Marcus set out to try the seemingly impossible task. But the fates conspired against them, driving them further westward, into the innermost sanctum of *Videssos*' great enemy Yezd -- and toward the torture chambers of the evil, deathless wizard-prince Avshar. But behind them, without orders, the men of the legion were on the march! From the Paperback edition.

All of Europe came together and signed a treaty to realize this new world, it was called 'The Atlantropa Articles'. Nazism Survives in A New Europe: by promising to bring endless energy through hydro-electricity and employing millions to build the dams, fascism only cements itself as a mainstream ideology. Hitler is seen as a modern Napoleon, one of the greats for his time. Nazism never disappears. The Reich Remains Eternal: Two millennia later, the Reich run the world. Aryans have become a race of their own, out numbering their neighbors and ruling with a messianic passion towards Hitler. Europe has been united under the banner of the swastika. The Sea Is Gone, the Promise Failed: But the plan of a fertile lush land was never realized. The project took decades longer than anticipated. By the time it is completed, what they find is a salty barren world. Now the Mediterranean Sea is a desert basin known only as the Kiln. Southern Europe has been abandoned. This is where Ansel's story begins. A story of discovery, lies and false prophets. The Atlantropa Articles is an astounding science fiction, alternate history tale that will thrill and transport readers with its detailed world and startling intimacy.

**Armistice** Harry Turtledove 2017-07-18 In the final book of the blistering trilogy *The Hot War*, old hatreds and new chances for revenge are unleashed on an already devastated world—as the Cold War becomes a roaring inferno. In 1952 American cities lie in ruins. President Harry Truman, in office since 1945, presides over a makeshift government in Philadelphia, suffering his own personal loss and fearing for the future of democracy. In the wake of Hitler's reign, Germany and America have become allies, and Stalin's vise hold on power in the USSR persists. Unwilling to trust the Soviet tyrant, Truman launches a long-planned nuclear strike on the city of Omsk—killing Stalin and plunging the Red Army into leaderless, destructive anarchy. Meanwhile, the Baltic states careen toward rebellion, and Poland is seized by rebels bred on war. In a world awash with victims turned victors, refugees, and killers, has Truman struck a blow for peace or fueled more chaos? As these staggering events unfold, the lives of men and women across battle lines, ethnicities, and religions play out around the globe. In Los Angeles, an extended Jewish family builds a future, while the foul smell of a refugee camp in Santa Monica blows in on the ocean breeze. In Korea, a U.S. fighter struggles to bring his Korean interpreter stateside as a full American. In Siberia, two German women fight for their survival in a gulag—and begin a strange, harrowing journey home. From the terrifying global chess match between superpowers to the strength of individual human conscience, *Armistice* captures a world that's been split to its core by the violence only mankind can create. Through the thunder of battle, the clashes of armies, and the whispers of lovers, how humanity will be rebuilt, and who will do it, are the questions that resound in this marvelous work of imagination and history. Praise for *Armistice* "The story's focus remains on ordinary characters and how they cope with their particular circumstances. . . . Readers who savor the patient accumulation of detail around each scenario will by now be thoroughly addicted."—Kirkus Reviews "The series is entertaining and explores life on the razor's edge."—SFRevu

**Sentry Peak** Harry Turtledove 2000-09-01 THE STRANGEST CIVIL WAR NOVEL YOU EVER READ! When Avram became King of Detina, he declared he intended to liberate the blond serfs from their ties to the land. The northern provinces, where most of the serfs lived, would not accept his lordship. The hot north was a land of broad estates, whose noble overlords took the serfs' labor and gave back next to nothing. Those provinces left Detina, choosing Avram's cousin, Grand Duke Geoffrey, as their king in his place. Avram said he had inherited all of the kingdom, not just a part. He refused to let Geoffrey rule the north without a challenge. And the southron provinces, full of merchants and smallholders stood solidly behind him. So he sent armies clad in gray against the north. Geoffrey raised his own army, and arrayed his men in blue

made from the indigo much raised on northern estates to distinguish them from the southrons. Avram held the larger part of the kingdom, and the wealthier part, too. But Geoffrey's men were bolder soldiers. And the north, taken all in all, had better wizards than the southrons did. The war raged for almost three years, until Avram's General named Guildenstern and his great lieutenant, Doubting George, moved against the northern army under Count Thraxton the Braggart and his commander of unicorn-riders, Ned of the Forest, which held the town of Rising Rock, close by Sentry Peak. . . . **The Case of the Toxic Spell Dump** Harry Turtledove 2013-08-29 David Fisher, an EPA (Environmental Protection Agency) bureaucrat, was not the stuff of which heroes are made. At least he hoped not. All he wanted was a good life with a good wife, and a chance to do his bit for society reviewing magical impact statements (like the one that assesses the effect on local non-life resulting from the introduction of leprechauns into Southern California, for example) and ensuring that various manufacturers of magical devices did not intentionally or otherwise foul the environment with the sorcerous by-products of their trade. Indeed it would be hard to imagine a more regular and down to earth soul than that of David Fisher of the EPA. No hero he! Then one day David received a call from Washington to investigate a certain Toxic Spell Dump, and suddenly he is up to his neck in skullduggery and magic most foul. Some ancient deity, it seems, is attempting to reopen for business in the L.A. Basin, complete with human sacrifice (open up their hearts and let the sun shine in!) and the destruction of Western Civilization. All that stands in the way is David Fisher - and he's no hero. Until he has to be.

**Bombs Away** Harry Turtledove 2016-06-28 An alternate history account of the Korean War is set in the aftermath of General MacArthur's decision to drop nuclear bombs on Manchurian cities.

**Colonisation: Second Contact** Harry Turtledove 2012-08-30 Halfway through World War II aliens invaded Earth. They were repelled - but now, years later they are back . . . This is the first volume in the three-part Colonisation series, which follows the *Worldwar* trilogy. The whole sequence will conclude with *Homeward Bound*. Through a mixture of guts, ingenuity and sheer luck, Earth managed to defend herself from her ruthless alien would-be conquerors. The 'Race' was fought to a bloody standstill despite its awe-inspiring weaponry and experience of merciless conquest. Thousands died from enemy fire, many more from the smouldering nuclear-scarred fall-out sites. An uneasy ceasefire reigns over this divided globe, as both sides strive to test their strength through more subtle techniques. But now, years later, this delicate equilibrium has been shattered. For the first assault was only an advance guard. Now, a whole new fleet orbits the planet. The real colonists have arrived, fresh and unwilling to accept old compromises. 'The wizard of If.' **Into the Darkness** Harry Turtledove 2000-04-15 In this epic novel Harry Turtledove tells the story of an enormous cast of characters: soldiers and generals, washerwomen and scholars, peasants and diplomats. For all the world, highborn and low, is being plunged by world war...into the darkness. When the Duke of Bari suddenly dies, the neighboring nation of Algarve, long seething over its defeat a generation ago in the Six Years' War, sees its chance to bring Bari into the fold...an action which the other countries surrounding Algarve cannot, by treaty, tolerate. As nation after nation declares war, a chain of treaties are invoked, ultimately bringing almost all the Powers of Derlavai into a war of unprecedented destructiveness. For modern magic is deadlier than in ears past. Trained flocks of dragons rain explosive fire down on defenseless cities. Massed infantry race from place to place along a network of ley-lines. Rival powers harness sea leviathans to help sabotage one another's ships. The lights are going out all across Derlavai, and will not come back on in this lifetime. **Jaws of Darkness** Harry Turtledove 2010-04-01 Harry Turtledove's masterful story of a magical world's cataclysmic war-which began with *Into the Darkness*, *Darkness Descending*, *Through the Darkness*, and *Rulers of the Darkness*-continues in this, the fifth

volume of the series: *Jaws of Darkness*. The grand conflict for control of the continent of Derlavai rages on, in a battle with all the drama and terror of the Second World War—only the bullets are beams of magical fire, the tanks and submarines are great lumbering beasts, and the fighters and bombers are dragons raining fire upon their targets. Yet hope may be dawning at last. The terrible onslaught of the conquering forces of Algarve—who power their battle magics with the life energy of their murdered victims—begins to founder as it runs into Habbakuk: a sorcerous ship of ice used by embattled nations of Lagoas and Kuusamo to ferry their deadly dragons across the seas to strike at the very heart of Algarvian power. But though the tide has begun to turn, the conflict is far from over. The widely disdained Kaunians still struggle desperately to escape as the Algarvians kill them by the thousands—for life energy, but also simply for the crime of being Kaunian. And as the deaths of innocent civilians on both sides continue to feed the flames of war, those who have struggled to survive and preserve their freedom have only their passions to see them through. . . . *Lest Darkness Fall* Lyon Sprague De Camp 1963 One of the best examples of the alternate history genre.

**Out of the Darkness** Harry Turtledove 2013-07-25 As the Derlavai War rages into its last and greatest battles, allied nations manoeuvre for positions against each other in a postwar world. But before that time can come, the forces of Algarve, Unkerlant and their allies must clash a final time, countering army with army and battle magic with ever-more-powerful battle magic. In the midst of it all, the people the war has battered and reshaped must struggle to face their greatest individual challenges, as loves are shattered and found, terrible crimes avenged...and some journeys end forever. And the end of the war may not bring peace...

**Last Orders (The War That Came Early, Book Six)** Harry Turtledove 2014-07-15 History is changed by one small act. In an extraordinary saga of nations locked in war, master storyteller Harry Turtledove examines a very different World War II—one which erupts eleven months earlier, and over Czechoslovakia rather than Poland. Now comes the final installment in this landmark series. Hitler's Plan A was to win in a hurry, striking hard and deep into France. There was no Plan B. Now the war grinds on. Countries have been forced into strange alliances. The Nazis fortify thin lines with Hungarian and Romanian troops. England, finding its footing after the suspicious death of Winston Churchill and a coup d'état, fights back in Europe and on the seas of the North Atlantic. Jews fight on both sides of the war—in secret in German uniform, openly in Spain, France, and Russia. Into the standoff come new killing tools, from tanks to bazookas. In the Pacific, Japan prepares bombs filled with macabre biological concoctions to be dropped on Hawaii. For the U.S., the only enemy is Japan, as there has been no casus belli for America in Europe. Then Hitler becomes desperate and declares war on the United States. But is it too late? His own people are rising up in revolt. The German military may have to put down the violence, even perhaps bomb its own cities. In this epic drama, real men and women are shaped by the carnage, and their individual acts in turn shape history. Drawing on the gritty, personal reality of war and on a cast of unforgettable characters, Harry Turtledove has written an alternate history that intrigues, fascinates, and astounds. Praise for *Last Orders* "From our perspective seventy years later, we're accustomed to thinking of WWII's outcome as being inevitable. Not so, says [Harry] Turtledove. . . . Disdaining broad brush strokes, Turtledove's focus on the characters serves to fill out the big picture with patient, nitty-gritty detail. It's all quite plausible. . . . Armchair warriors will have much to ponder."—Kirkus Reviews Praise for Harry Turtledove "If you like alternate histories, you're going to like this series a lot."—The San Diego Union-Tribune "Turtledove is the standard-bearer for alternate history."—USA Today Coup d'Etat "This is what alternative history is all about."—Historical Novel Society *The Big Switch* "The Hugo Award winner continues to delight in exploring the world of 'what if?'"—Library Journal West and East "There's plenty to satisfy fans of military strategy, tactics, and armaments."—Publishers Weekly *Hitler's War* "Turtledove is always good, but this return to World War II . . . is genuinely brilliant. . . . **The Man with the Iron Heart** Harry Turtledove 2008-07-22 What if V-E Day didn't end World War II in Europe? What if, instead, the Allies had to face a potent, even fanatical, postwar Nazi resistance? Such a movement, based in the fabled Alpine Redoubt, was in fact a real threat, ultimately neutralized by Germany's flagging resources and squabbling officials. But had SS Obergruppenführer Reinhard Heydrich, the notorious Man with the Iron Heart, not been assassinated in 1942, fate might have taken a different turn. We might likely have seen a German guerrilla war launched against the conquerors, presaging by more than half a century the protracted conflict with an unrelenting enemy that now engulfs the United States and its allies in Iraq. How might today's clash of troops versus terrorists have played out in 1945? In this imagined world, Nazi forces resort to unconventional warfare, using the quick and dirty tactics of terrorism—booby traps, time bombs, mortar and rocket strikes in the night, assassinations, even kamikaze-style suicide attacks—to overturn what seemed to be a decisive Allied victory. In November 1945, a truck bomb blows up the Nuremberg Palace of Justice, where high-ranking Nazi officials are about to stand trial for war crimes. None of the accused are there when the bomb goes off, but their judges, all of them present and accounted for, are annihilated. Worse acts of terrorism follow all over Europe. Suddenly the Allies—especially the United States—must battle an invisible enemy and sacrifice countless lives in a long, seemingly pointless, unwinnable conflict. On the home front, patriotism corrodes, political fortunes are made and lost in the face of an antiwar backlash, and a once-proud country wonders how the righteous fight for freedom overseas has collapsed into a hopeless quagmire. At once a novel of thrilling military suspense, intriguing alternate history, and profound insight into contemporary affairs, *The Man with the Iron Heart* is a tour de force by a storyteller of exceptional imaginative power.

*Settling Accounts* Harry Turtledove 2005 In an alternate universe in which Japan rules the Pacific and Alaska is a Russian territory, Confederacy president Jake Featherston sends his planes to bomb Philadelphia and General George Patton drives his armored divisions north, triggering World War II. By the author of *American Empire: The Victorious Opposition*. Reprint. 30,000 first printing.

**A Different Flesh** Harry Turtledove 2015-06-09 This novel by the New York Times–bestselling "master of alternate history" explores an America reshaped by a twist in prehistoric evolution (*Publishers Weekly*). What if mankind's "missing link," the apelike *Homo erectus*, had survived to dominate a North American continent where woolly mammoths and saber-toothed tigers still prowled, while the more advanced *Homo sapiens* built their civilizations

elsewhere? Now imagine that the Europeans arriving in the New World had chanced on these primitive creatures and seized the opportunity to establish a hierarchy in which the sapiens were masters and the "sims" were their slaves. This is the premise that drives the incomparable Harry Turtledove's *A Different Flesh*. The acclaimed Hugo Award winner creates an alternate America that spans three hundred years of invented history. From the Jamestown colonists' desperate hunt for a human infant kidnapped by a local sim tribe, to a late-eighteenth-century contest between a newfangled steam-engine train and the popular hairy-elephant-pulled model, to the sim-rights activists' daring 1988 rescue of an unfortunate biped named Matt who's being used for animal experimentation, Turtledove turns our world inside out in a remarkable science fiction masterwork that explores what it truly means to be human.

**Worlds That Weren't** Harry Turtledove 2005-07-05 Four award-winning authors. Four amazing alternate histories. In this collection of novellas, four masters of alternate history turn back time, twisting the facts with four excursions into what might have been. Bestselling author Harry Turtledove imagines a different fate for Socrates (now Sokrates); S. M. Stirling envisions life "in the wilds of a re-barbarized Texas" after asteroids strike the earth in the 19th century; Sidewise winner Mary Gentle contributes a story of love (and pigs) set in the mid-15th century, as European mercenaries prepare to sack a Gothic Carthage; and Nebula nominee Walter Jon Williams pens a tale of Nietzsche intervening in the gunfight at the O.K. Corral.

*The Singularity: Heretic* David Beers 2014-11-17 One thousand years in the future, humans no longer rule... In the early twenty-first century, humanity marveled at its greatest creation: Artificial Intelligence. They never foresaw the consequences of such a creation, though... Now, in a world where humans must meet specifications to continue living, a man named Caesar emerges. Different, both in thought and talent, Caesar somehow slipped through the genetic net meant to catch those like him. Eyes are falling on Caesar now, though, and he can no longer hide. The Artificial Intelligence wants him dead, but others want him to lead their revolution... Can one man stand against humanity's greatest creation? A don't-miss epic science fiction novel that pits one man fighting for the future of all people!

**Prince of the North** Harry Turtledove 2015-06-09 A great leader rises when forced to defend his troubled lands against an onslaught of monsters in the second book of this remarkable fantasy series featuring Gerin the Fox. Peace in the North has been fragile and tentative in the five years since the terrible Werenight, when the light of four full moons transformed men into beasts. Now cut off completely from the Elabon Empire, the land is in violent dispute, squabbled over by minor barons hungry for greater power. Gerin the Fox is one of the few who stand firm against the encroaching chaos, but his own life has been violently shaken, first by a heartless betrayal and then by the kidnapping of his young son. Having angered a vengeful deity, he cannot look to the gods for support. Yet it is Gerin to whom the people must turn when an earthquake tears their land open, undoing an ancient warding spell and releasing a host of ravaging beasts from the dark underground. The stunning sequel to *Werenight*, Hugo Award-winning author Harry Turtledove's *Prince of the North* is a magnificent work of fantasy fiction. The master builder of wondrous worlds and alternate histories works his literary sorcery once again in this richly imagined tale of war, magic, gods, and monsters.

*Household Gods* Judith Tarr 2000-07-15 Burned-out L.A. lawyer Nicole Gunther-Perrin wakes up one day as an innkeeper in a dangerous, exotic town on the ancient Roman frontier. Reprint.

**Darkness Descending** Harry Turtledove 2007-04-01 Now Turtledove returns to the story of a World War in a world where magic works, with this moving second volume. Algarvian soldiers corral Kaunians to send them west, towards Unkerlant, to work camps. The Kaunians left behind are worried about what the work camps might mean, but are assuaged by Algarvian lies. In Kuusamo, scholars race to find the relation between the laws of similarity and contagion. Rumors abound about the Algarvian work camps, rumors most cannot believe as true. But the mages know, for they can feel the loss of life in their very souls. Turtledove's cast of characters in *Darkness Descending* takes on its own life as

the reader sees the war from all sides and understands how the death and destruction benefits no one, not even the victors. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

**Departures** Harry Turtledove 1998-09-17 From the undisputed master of Alternate History comes an original collection of 20 provocative stories springing from the imaginative reinvention of history. Traveling down ancient roads and into far-off futures, Harry Turtledove poses the "what ifs" of history and arrives at some interesting conclusions.

**Hitler's War** Harry Turtledove 2009-08-04 A stroke of the pen and history is changed. In 1938, British prime minister Neville Chamberlain, determined to avoid war, signed the Munich Accord, ceding part of Czechoslovakia to Hitler. But the following spring, Hitler snatched the rest of that country, and England, after a fatal act of appeasement, was fighting a war for which it was not prepared. Now, in this thrilling alternate history, another scenario is played out: What if Chamberlain had not signed the accord? In this action-packed chronicle of the war that might have been, Harry Turtledove uses dozens of points of view to tell the story: from American marines serving in Japanese-occupied China and ragtag volunteers fighting in the Abraham Lincoln Battalion in Spain to an American woman desperately trying to escape Nazi-occupied territory—and witnessing the war from within the belly of the beast. A tale of powerful leaders and ordinary people, at once brilliantly imaginative and hugely entertaining, *Hitler's War* captures the beginning of a very different World War II—with a very different fate for our world today. BONUS: This edition contains an excerpt from Harry Turtledove's *The War that Came Early: West and East*.

*In the Presence of Mine Enemies* Harry Turtledove 2004-11-01 In a novel of alternative history, Germany has won World War II, and in the twenty-first century rules most of Europe and North America, but beneath an Aryan facade, Jews survive within the Nazi regime, hoping not to be detected. Reprint.

*The Center Cannot Hold (American Empire, Book Two)* Harry Turtledove 2002-06-25 In this spectacular, thought-provoking epic of alternate history, Harry Turtledove has created an unparalleled vision of social upheaval, war, and cutthroat politics in a world very much like our own—but with dramatic differences. It is 1924—a time of rebuilding, from the slow reconstruction of Washington's most honored monuments to the reclamation of devastated cities in Europe and Canada. In the United States, the Socialist Party, led by Hosea Blackford, battles Calvin Coolidge to hold on to the Powell House in Philadelphia. And it seems as if the Socialists can do no wrong, for the stock market soars and America enjoys prosperity unknown in a half century. But as old names like Custer and Roosevelt fade into history, a new generation faces new uncertainties. The Confederate States, victorious in the War of Secession and in the Second Mexican War but at last tasting defeat in the Great War, suffer poverty and natural calamity. The Freedom Party promises new strength and pride. But if its chief seizes the reins of power, he may prove a dangerous enemy for the hated U.S.A. Yet the United States take little note. Sharing world domination with Germany, they consider events in the Confederacy of little consequence. As the 1920s end, calamity casts a pall across the continent. With civil war raging in Mexico, terrorist uprisings threatening U.S. control in Canada, and an explosion of violence in Utah, the United States are rocked by uncertainty. In a world of occupiers and the occupied, of simmering hatreds, shattered lives, and pent-up violence, the center can no longer hold. **Rulers of the Darkness** Harry Turtledove 2002-03-20 Beginning with *Into the Darkness*, *Darkness Descending*, and *Through the Darkness*, bestselling author Harry Turtledove ("The master of alternative history"-Publishers Weekly) has been telling an epic tale: the story of a world war, comparable to the terrible world wars of our own 20th century, in a world where magic works. Imagine the drama and terror of the Second World War-only the bullets are beams of magical fire, the tanks are great lumbering beasts, and fighters and bombers are dragons raining fire upon their targets. Welcome to the world of the Derlavaiian War, a world that is slowly but surely being conquered, mile by bloody mile, by the forces of the Algarvian empire . . . forces whose most terrible battle magics are powered by the slaughter of innocent people, the Kaunians, whom Algarve-like much of the world-holds in disdain. In *Rulers of the Darkness*, the fourth volume of the series which began with *Into the Darkness*, the war for the continent of Derlavai builds toward its crescendo as the mages of Kuusamo, aided by their former rivals from Lagoas, work desperately to create a newer form of magic that will change the course of the war. But this is really a story of ordinary people-on all sides of the conflict-forced by fate to rise to their heroic limits . . . or sink to the level of their darker natures. **Give Me Back My Legions!** Harry Turtledove 2009-04-14 Bestselling author Harry Turtledove turns his attention to an epic battle that pits three Roman legions against Teutonic barbarians in a thrilling novel of Ancient Rome: *Give Me Back My Legions!* Publius Quinctilius Varus, a Roman politician, is summoned by the Emperor, Augustus Caesar. What he learns is essential for the survival of Germany, for he must unite his people against Rome before they become enslaved by the Empire and lose their way of life forever. An epic battle is brewing, and these two men

**Alpha and Omega** Harry Turtledove 2019-07-02 New York Times bestselling author Harry Turtledove reveals a new side of his potent imagination in a gripping speculative novel about the End of Days—and a discovery in the Middle East that turns the world upside down. What would happen if the ancient prophecy of the End of Days came true? It is certainly the last thing Eric Katz, a secular archaeologist from Los Angeles, expects during what should be a routine dig in Jerusalem. But perhaps higher forces have something else in mind when a sign presaging the rising of the Third Temple is located in America, a dirty bomb is detonated in downtown Tel Aviv, and events conspire to place a team of archaeologists in the tunnels deep under the Temple Mount. There, Eric is witness to a discovery of such monumental proportions that nothing will ever be the same again. Harry Turtledove is the master at portraying ordinary people caught up in extraordinary events, and what is more extraordinary than the incontrovertible proof that there truly is a higher force controlling human destiny? But as to what that force desires . . . well, that is the question.
